

# Specification

403980 Dimethylglyoxime disodium salt octahydrate p.a.

| CAS        | Formula                                                                                        | Molweight |
|------------|------------------------------------------------------------------------------------------------|-----------|
| 75006-64-3 | C <sub>4</sub> H <sub>6</sub> N <sub>2</sub> Na <sub>2</sub> O <sub>2</sub> *8H <sub>2</sub> O | 304,21    |

| Parameter                           | Specification |
|-------------------------------------|---------------|
| Assay (NT) calc. on dried Substance | min. 97.0 %   |
| Water (Karl Fischer)                | 44.0 - 49.0 % |
