

# Specification

505090 4'-Hydroxyphenylazo-2-benzoic acid p.a.

| CAS       | Formula                                                       | Molweight |
|-----------|---------------------------------------------------------------|-----------|
| 1634-82-8 | C <sub>13</sub> H <sub>10</sub> N <sub>2</sub> O <sub>3</sub> | 242,23    |

| Parameter                     | Specification |
|-------------------------------|---------------|
| Assay (ac. Titr.)             | min. 98.0 %   |
| Melting range (Decomposition) | min. 202 °C   |
| Sulphated ash                 | max. 0.1 %    |
| Solubility (2% in ethanol)    | passes test   |
